	<b>Examiner</b> Jeanette E. Chapman	<b>Art Unit</b> 3633	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 40 is rejected under 35 U.S.C. 102(b) as being anticipated by Andrews (3492766).

Claim 40.

Andrews discloses an extensible beam comprising:

(a) a first elongate element 35 comprising:

a top panel 46, for supporting building materials thereon; opposing side panels 40 which project generally perpendicular from opposing sides of the top panel so that the top panel and side panels form three sides of the first element which is generally rectangular in transverse cross section; and first and second support portions 54 projecting inwardly from respective inner surfaces of the respective first and second side panels 40, the support portions 54 being provided on at least one support member 66, attached to but formed separately from the side panels and vertically spaced apart from the bottoms 34 of the side panels; and

(b) a second element 45/47/48 adapted to move relative to the first elongate element in order to vary the amount of overlap between the first and second elements and thereby vary the length of the beam, the second element comprising first and second generally parallel spaced apart bars 45 connected by at least one cross member 47, the first and

Art Unit: 3633

second bars 45 forming respective first and second sides of the second element, and being provided at or adjacent the side panels 40 of the first element; whereby the first and second bars 45 are supported by the respective first and second support portions 40 and able to slide relative thereto in order to provide relative axial movement of the second element relative to the first element.

claims 1, 4-6, 8-10, 13, 16, 18, 22, 24-25, 34, 36 and 41-44 are allowable over the prior art of record

Applicants arguments are moot in view of the new ground of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chapman E. Jeanette whose telephone number is 571-
